Waste Management Steps

E-waste Management

- Old version computers are transferred to the schools run by our education society.
- The major e-waste such as written off instruments/ equipments, CRT's , Printers, Computers.
- Electronic gadgets, circuits, kits have been written off on regular basis and then it is sold out to buyers by auctioning.
- All the miscellaneous e-waste such as CDs, batteries, fluorescent bulbs, PCBs and electronic items are collected from every department and office and delivered for safe disposal.
- Useful parts of electronic gadgets like resistors, capacitors, inductors, diodes, transistors, thermistors etc. have been removed from the gadgets for reuse in projects.

Liquid Waste Management

Liquid waste from the points of generation like the canteen and toilet etc is let out as effluent into a proper drainage facility and to avoid stagnation.

Solid Waste Management

Every day all the academic buildings and other surrounding area in the campus are cleaned by college peons and they separate out waste and dispose accordingly.

Chemical Waste Management in Laboratories

During the experiment of Chemistry, faculty and students use micro scale technique analysis for avoiding excess use of hazardous chemicals.

Minimizing Use of Papers

Faculty and students use e-notes , e-test, e-examination for avoiding wastage of papers.

Faculties are busy in eco-friendly research

Faculties of Chemistry Department are contributing to the society by engaging themselves in eco-friendly research and presenting in national and international conferences. They motivate the next generation by giving challenging and useful projects to their students for various research competition like Avishkar Research Convention.
